**Regulatory Information****C €1588**

FCC ID: WQKW1000

**Declaration of Conformity**

We, modu Ltd. hereby declare that this modu™ W product is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC. A copy of the Declaration of Conformity can be found at [www.modumobile.com/DoC.htm](http://www.modumobile.com/DoC.htm).

WLAN and Bluetooth technologies use frequencies in the spectrum around 2.4 GHz.

This spectrum may have restrictions in some countries.

For example the use may be limited to specific channels, or limited to indoor usage. For more specific information you should contact the local authorities.

In Israel WLAN usage is limited to channels 1-13 which cover the frequency range of 2.4 - 2.483 GHz.

**Federal Communication Commission Compliance Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules, subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The FCC requires the user to be notified that any changes or modifications not expressly approved by modu Ltd. could void the user's authority to operate this equipment.

**FCC Radiation Exposure Statement**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

IEEE 802.11b or 802.11g operation of this product in the U.S.A. is firmware-limited to channels 1 through 11.

The crossed-out wheeled-bin symbol on your product, literature or packaging reminds you that the electronic products, batteries, and accumulators must be taken to separate collection at the end of their working life. This requirement applies to the European Union and other locations where separate collection systems are available.

Do not dispose of these products as unsorted municipal waste. By returning the products to collection you help prevent uncontrolled waste disposal and promote the reuse of material resources. For more information about returning your obsolete product, please contact your local waste authorities or local distributor.

## Getting Started

### What's in the Box

Your modu W package contains the following components:

- A modu W product
- An AC adapter
- An USB data cable
- A 2 GB microSD™ memory card
- 3.5 stereo headset
- A Quick Reference Guide
- A warranty card

## Preparing Your modu™ W device for Use

This chapter explains how what you need to do in order to start using your modu™ W. This chapter includes the following topics:

- Install / remove the SD memory card
- Charge your modu W
- Turn on/off our modu W
- Manage the lock screen
- Change to sleep mode
- Lock the modu W screen
- Welcome wizard
- Import contacts

### Installing the MicroSD™ Memory Card

Make sure to always turn off your modu W before installing or replacing the SD memory card. The purpose of the SD memory card is to be able to store your pictures, music, and other files.

1. Turn off your modu W by pressing and holding the **Power** key.  
The **Phone options** menu appears.
2. Touch the **Power off** option.  
A notification message appears:
3. Touch the **OK** button.
4. Turn your modu W so that the side is facing you.
5. Open the storage slot cover.
6. Hold the cover back, and place the SD card in its slot.
7. Push the SD card into your modu W.

8. Close the cover.

#### Removing the MicroSD™ Memory Card

9. Turn off your modu™ W by pressing and holding the **Power** key.  
The **Phone options** menu appears.
10. Touch the **Power off** option.  
A notification message appears:
11. Touch the **OK** button.
12. Turn your modu W so that the side is facing you.
13. Open the storage slot cover.
14. Hold the cover back.
15. Press the SD card to eject it from its slot.
16. Remove the SD card
17. Close the cover.

#### Charging the Modu™ W Battery

Charge your modu W when first receiving it for two hours to fully charge its battery.

**NOTE:** The modu W battery cannot be removed.

You can charge your modu W battery by connecting your modu W to the AC adapter or by connecting it to the USB port on your computer.

The following is an illustration and explanation of the charging methods:

» **Charging Your modu™ W Battery Using the AC Adapter**

1. Insert the AC plug into an electrical outlet.
2. Connect the other end of the AC adapter cable to the micro USB port on the bottom of your modu™ W.

» **Charging Your modu™ W Battery Using Your Computer**

1. Insert the USB data cable into the computer's USB port.
2. Connect the other end of the USB data cable to the micro USB port on the bottom of your modu W.

**TIP:** It is recommended that you use the AC adapter and USB cable provided with your modu W package only in order to charge the modu W battery.

Notice that the  **(Charging)** icon is displayed in the status bar of the **Home** screen. When the battery is fully charged a  **(Full Battery)** icon is displayed in the status bar of the **Home** screen.

**Turning Your modu™ W On / Off**

Only after you installed the SD (storage) card, you can turn your modu W and start to use it.

**» Turning Your modu™ W On**

1. Press and hold the **Power** key.  
When using your modu W for the first time, you will be prompted to set up your modu™ W by the welcome wizard. The default screen displayed in the **Lock** screen.

**» Turning Your moduW Off:**

1. Press and hold the **Power** key.  
The **Phone options** menu appears.
2. Touch the **Power off** option.  
A notification message appears:
3. Touch the **OK** button.

**» Managing the Lock Screen**

You can access the following from the **Lock** screen:

- **Dialer** – Touch and drag the right arrow to make a call.
- **Home** screen – Touch and drag the left arrow to display the **Home** screen.
- **Notifications** – Touch and drag the arrow downwards to view notifications.
- **Modu Portal** – Touch and drag the arrow upwards to display the modu portal.

**Changing to Sleep Mode When Not in Use**

The purpose of changing the screen to sleep mode when not in use is to save the battery's power. If this option is on, the modu™ W automatically goes into the sleep mode after a certain time period (the default time period is 30 seconds), and when wakes up the displayed screen will be the last screen you were on.

**Note:** You will still be able to receive messages and calls while the modu W screen is off.

1. Access the **Home** screen.
2. Press the **Menu** button.  
The **Menu** appears:
3. Touch the **Settings** option.  
The **Settings** screen appears:
4. Touch the **Sound & display** option.  
The **Sound & display** menu appears:
5. Touch the **Screen timeout** option in the **Display settings** section.  
The **Screen timeout** screen displays.
6. Touch the relevant option button e.g. 1 minute, 2 minutes etc.).
7. Press the **Back** button to return to the previous screen/s.

**Locking / Unlocking Your modu W When Not in Use**

You can protect that data on your modu™ W by locking your modu W screen. The advantage of locking the screen is to prevent accidental screen touches when the modu W is in your backpack, purse, or pocket.

There are two locking options:

- By the power key
- By the locking pattern

**Note:** If a locking pattern option is enabled, when wanting to unlock the screen, you will be required to draw the correct a pattern to unlock it.

You will still be able to receive messages and calls while the modu W is locked.

**» Locking Your moduW Using the Power Key**

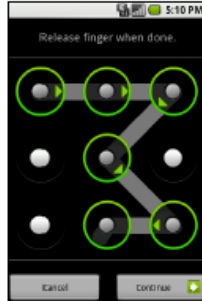

1. To lock, press the **Power** key located on the right sideways panel.
2. To unlock, press the **Power** key again.

**» Locking Your modu W Using the Locking Pattern**

1. To create the unlock pattern, access the **Home** screen.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Settings** option.  
The **Settings** screen appears:

4. Touch the **Security & location** option.  
The **Security & location** screen appears:
5. Scroll down to the **Screen unlock pattern** section.
6. Touch the **Set unlock pattern** option.
7. Read the information on the screen.
8. Touch the **Next** button to continue.
9. Study the example pattern on the screen.
10. Touch the **Next** button to continue.
11. Draw the screen unlock pattern by touching and dragging your finger connecting at least four dots in a vertical/horizontal/diagonal direction.
12. Lift your finger from the screen when done.

Below is an example:

The modu™ W records the pattern.

13. Touch the **Continue** button to continue.
14. Draw the screen unlock again.
15. Touch the **Confirm** button when finished.
16. To cancel the locking pattern, press the **Menu** key.  
The **Menu** appears:

17. Touch the **Settings** option.  
The **Settings** screen appears:
18. Touch the **Security & location** option.  
The **Security & location** screen appears:
19. Scroll down to the **Screen unlock pattern** section.
20. Touch the **Require pattern** option.

**NOTE:** After five times you draw the unlock pattern incorrectly, you will be promoted to wait for 30 seconds before you can retry.  
Touch the **Forgot pattern** button in case you forgot your unlock pattern. You will be asked to sign in to your Email account in order to create a new screen unlock pattern before the Home screen is displayed.

### Setting Up Your modu W for the First Time Using the Welcome Wizard

When turning on the modu W for the first time, you will be prompt to set it up using a welcome wizard. First you will need to sign in to your existing Email account (e.g. google, yahoo, hotmail).

**TIP:** You need to know your Email account's password in order to sign in.

The following are the welcome wizard stages:

- Connecting to the Wi-Fi
- Setting up mail

**» Connecting to Wi-Fi®**

Wi-Fi provides wireless Internet. In order to use your modu™ W you need access to a wireless network.

This section includes the following topics:

- Email account set up.
- Voice & SMS service set up

**» Turning Wi-Fi® On and Connecting to a Wireless Network:**

1. Press the **Home** key.
1. Press the **Menu** key.  
The **Menu** appears:
2. Touch the **Setting** button.
3. Touch the **Wireless controls** button.  
The **Wireless controls** screen appears:
4. Touch the **Wi-Fi** option.  
Notice that the **Turn on Wi-Fi** check box is marked.  
The modu W scans for available wireless networks.
5. Touch the **Wi-Fi settings** option.  
The detected Wi-Fi (wireless) networks are displayed in the Wi-Fi network section.
6. Touch a **Wi-Fi network** to connect to.

**TIP:** When you select an open network, you will be automatically connected to it. If you select a secured network in, enter the password and touch the **Connect** button.

**» Importing Your Contacts**

To be completed

1. Access the **Contacts** list.  
The **Contacts** list appears:
2. Touch the contact in order to open the contact option menu.

### Getting to Know Your modu™ W

This chapter explains how navigate your modu™ W. This chapter includes the following topics:

- Modu W panels
- Control keys
- Touch screen
- Home screen
- The home screen menu
- Extend the home screen
- Manage the home screen

#### Modu™ W Panels

##### » Front Panel

To be completed.

## » Left &amp; Back Panels

## » Top &amp; Bottom Panels

## » Right Panel

**modu W Controls**

There are three control keys located at the front panel of your modu™W:

Keys	Description
Back	▪ Press to go back to the previous screen, or to close a dialog box, menu, or the notifications panel.
	▪ When the onscreen keyboard is open, press to close the onscreen keyboard.

Menu	<ul style="list-style-type: none"><li>■ Press to open a list of actions that you can perform on the current screen or options menu.</li></ul>
Home	<ul style="list-style-type: none"><li>■ While on any application or screen, press to return to the <b>Home</b> screen.</li><li>■ Press and hold to open the recently-used applications window (notice that only the six recently used applications appear).</li></ul>

### Using the Touch Screen

There are five finger movements that you use to select or view information on your modu W:

- **Touch/Tap:** Using your fingertip to type on the onscreen keyboard, select items onscreen such as applications and settings icons, or press onscreen buttons.

- **Touch & Hold:** Using your fingertip, touch the screen and hold your finger there for a few seconds in order to open available options for an item (e.g.

contacts).

- **Drag:** Using your fingertip, touch and hold it on the screen with some pressure before dragging it. Do not release your finger until you have reached the desired position.

- **Slide/Swipe:** Place your finger anywhere on the screen and quickly slide your finger as follows:

- Slide/swipe Up: Slide your fingertip in an upward (vertically) movement.
- Slide/swipe Down: Slide your fingertip in a downward (vertically) movement.
- Slide/swipe Left: Slide your fingertip quickly to the left in a horizontally movement.

- **Slide/swipe Right:** Slide your fingertip quickly to the right in a horizontally movement.
- **Rotate:** The modu W automatically changes the screen orientation from portrait to landscape when turning the modu W sideways. For example: when entering text, turn the modu W sideways to bring up a full keyboard.

**NOTE:** To define an automatic orientation change follow these steps:

**Home screen > Menu > Settings > Sound & display**  
> select **Orientation**.

A check icon is displayed next to your choice.

On the touch screen, perform the following actions to select or view menu items or options:

- To select a menu item or option, tap it.
- To view all of the text of a menu item, touch and hold the menu item.
- To scroll through a list, swipe up or down.
- To scroll slowly through a list, slowly move your finger up or down the screen.

**TIP:** A scroll bar on the right side of the screen indicates that you need to scroll to see the remaining items in the list.

### Home Screen

The **Home** screen is your starting point for using the applications on your modu W. You can customize the **Home** screen to display application icons, shortcuts, folders, and widgets.

This section explains how to work with the **Home** screen and customize it.

- Touch and drag the downwards arrow to view all notifications
- Touch and drag the upwards arrow to view all applications

**TIP:** While in any application, press the **Home** key to return to the **Home** screen.

### » The Menu

You can perform various actions available from the **Menu**.

To access the **Menu**, press the  (**Menu**) key located at the bottom front of the modu W.

The available options are as follow:

Option	Description
Add	Opens the <b>Add to Home screen</b> menu which enables you to add items to the Home screen such as shortcuts, Widgets, Folders, and Wallpapers.
Wallpaper	Opens the <b>Select wallpaper from</b> menu which enables you to select a wallpaper for your modu W either from imported pictures or from the preinstalled modu W wallpaper gallery
Search	Opens a <b>Quick Search Box</b> which enables you to enter any text to conduct a search.
Notifications	Opens the <b>Notifications</b> screen which displays all the new notifications available.
Settings	Opens the <b>Settings</b> screen which enables you to define various settings for you modu W such as Sound & display, Applications, Date & time etc.

#### » Extending the Home Screen

The modu W enables you to extend beyond the screen width in order to provide more space for adding icons, widgets, etc.

1. Press the **Home** button.

The **Home** screen appears:

2. Slide your finger horizontally across the screen to go left or right of the extended Home screen.

**NOTE:** You can slide only through two screens to the right and two screens to the left of the **Home** screen. Press the **Home** button to return to the main **Home** screen.

» **Navigating Between Screens:**

- To return to the previous screen, touch the **Back** key.
- To return to the **Home** screen, touch and hold the **Back** key.

» **Customizing the Home Screen**

This section explains how to:

- Add a Home screen item.
- Reposition a home screen item.
- Remove a home screen item.
- Change the Home screen wallpaper.
- Create a folder & add items to it.
- Rename a folder.

All the customization is performed from the **Add to Home screen** menu which can be accessed by:

- Touching and holding an empty area on the **Home** screen.

or

- Pressing the **Menu** button > Tapping the **Add** option.

The following are the available items:

Item	Description
Shortcut	Enables to add shortcuts such as applications, bookmarks, favorite contacts, music playlist, etc.
Widgets	Enables to add widgets to the <b>Home</b> screen.
Folders	Enables to add folders/shortcuts where you can organize <b>Home</b> screen items.
Wallpapers	Enables to change the <b>Home</b> screen wallpaper.

#### » Adding a Home Screen Item

1. Access the **Add to Home screen** menu.
2. Touch the item you wish to add to the **Home** screen.
3. Press the **Back** button to return to the previous screen/s.

#### » Repositioning a Home Screen Item:

1. Touch and hold the item on the screen you want to reposition in order to activate the **Move** mode.

**NOTE:** When the **Move** mode is activated, the item magnifies and the modu™ W vibrates.

2. Drag the item (icon) to the desired position on the screen (without lifting your finger from the screen).

3. Release your finger.

**NOTE:** To move an item from the **Home** screen to an extended **Home** screen following these steps:

1. Touch and hold the item.
2. Drag it to the left or right edge of the screen until the display shifts to the extended **Home** screen.
3. Position the item on the screen.
4. Release your finger.

5. Press the **Back** key to return to the previous screen.

#### » Removing a Home Screen Item

1. Touch and hold the item on the screen you want to remove in order to activate the **Move** mode.

**NOTE:** When the **Move** mode is activated, the item magnifies and the modu™ W vibrates.

2. Drag the item (icon) to the Application tab which has changed to the  (**Trash**) tab.  
The  (**Trash**) tab turns read.
3. Release your finger.

#### » Changing the Home Screen Wallpaper

1. Access the **Add to Home screen** menu.
2. Touch the **Wallpapers** item.  
The **Select wallpaper from menu** appear:

3. Touch the desired option (**Pictures/Wallpaper gallery**).  
**Pictures** – Enables you to use a picture that you have saved into the (photo) gallery as wallpaper.  
**Wallpaper gallery** – Enables you to used preset wallpapers that came with the modu™ W.
4. Touch the **Set wallpaper** option.  
 The selected wallpaper is not displayed on your modu W.
5. Press the **Back** button to return to the previous screen/s.

#### » **Creating Folders & Adding Items**

Modu™ W allows you to create folders on the Home screen in order to hold application icons/shortcuts.

1. Access the **Add to Home screen** menu.
2. Touch the **Folders** item.  
 The **Select folder menu** appear
3. Touch the **Add folder** item.  
 The **new folder** appears on the **Home** screen.
4. Touch and hold the application icon / shortcut from the Home screen in order to activate the Move mode.
5. Drag the application icon / shortcut on top of the desired folder.
6. Release your finger.
7. To access the item/s inside the folder open the folder by touching it.  
 The folder is not open:
8. Touch the application icon/shortcut you wish to open.

**NOTE:** To delete a folder follow the step describes in section **Removing a Home Screen Item**.

**» Renaming a Folder**

1. Access the **Home** screen.
2. Touch the **Folders** you wish to rename.
3. Touch and hold the folder's title bar.  
The **Rename folder** dialog box appears
4. Enter the desired folder name by touching the Folder name field.
5. Type the folder name.

**TIP:** You can either use the full onscreen keyboard, or the 16-key pad.

6. Touch the **Done** button when done.  
The Rename folder dialog box reappears.
7. Touch the **OK** button.

**Basic Settings**

This section explains the basic settings in order to use your modu W prior the first use. This section includes the following topics:

- Volume adjustment
- Date, time zone & time set up
- Ringer settings set up
- Language set up

**Opening the Settings Screen**

There are two ways to open the **Settings** screen.

- Press **Home > Menu > Settings.**  
or
- Press **Home > Application tab > Settings.**

The following are the settings options available:

Option	Description
Wireless controls	Enables you to configure your modu W connections, such as Wi-Fi, Bluetooth, Airplane mode, etc.
Sound & display	Enables you to call and notification ring tones, or set screen brightness, timeout, etc.
Security & location	Enables you to set the screen unlock pattern, etc.
Applications	Enables you to manage applications and installation of new programs.
SD card & phone storage	Enables you to check the available card and modu W internal memory, reset the modu W to its factory default settings, etc.
Date & time	Enables you to set the date, time, time zone, and date or time format.
Locale & text	Enables you to set the modu W keyboard options.
Search	Enables you to set Google search, and searchable items.
Speech synthesis	Enables you to set the speech rate, and Language.

Option	Description
About phone	Enables you to view the modu W status, battery use, and legal information.

### Adjusting the Volume

modu W enables you to control its volume by adjusting the ringer volume which changed volume level of the ring tones. You can also adjust the media volume which will affect the volume level of the sound notifications and music or video playback.

#### » Adjusting the Ringer Volume Using the Volume Keys:

1. Press the **Volume Up** (Plus) key or **Volume Down** (Minus) key located at the left panel of the modu W.  
The **Ringer volume** screen appears:
2. Adjust the ringer volume to your desired level.

**NOTE:** While on the lowest volume level, press once on the **Volume Down** (minus) key to set the modu™ W to Vibrate mode. Notice that the modu W vibrates and  (**Vibrate Mode**) icon appears on the status bar.

While on Vibrate mode, press once on the **Volume Down** (minus) key to turn off the sound of your modu W. Notice that the  (**Speaker Mute**) icon appears on the status bar.

**TIP:** To quickly switch your modu W to silent mode, press and hold the **Power** key > touch the **Silent mode** from the **Phone options** menu.

» **Adjusting the Ringer Volume Using the Settings Screen**

3. Press the **Home** key.
4. Press the **Menu** key.  
The **Menu** appears:
5. Touch the **Setting** button.
6. Touch the **Sound & display** button.  
The **Sound & display** screen appears:
7. Touch the **Ringer volume** button.  
The **Ringer volume** screen appears:
8. Adjust the volume by moving the slider to the left or right.  
Moving the slider to the left decreases the volume.  
Moving the slider to the right increases the volume.
9. Touch the **OK** button.  
The **Ringer volume** screen closes.

» **Adjusting the Media Volume Using the Volume Keys**

1. Press the **Volume Up** (Plus) key or **Volume Down** (Minus) key located at the left panel of the modu™ W while playing music or watching videos.  
The **Music/video volume** screen appears:
2. Adjust the volume to your desired level.

**» Adjusting the Media Volume Using the Settings Screen**

1. Press the **Home** key.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Settings** option.
4. Touch the **Sound & display** option.  
The **Sound & display** screen appears:
5. Touch the **Media volume** option.  
The **Media volume** screen appears:
6. Adjust the volume by moving the slider to the left or right.  
Moving the slider to the left decreases the volume.  
Moving the slider to the right increases the volume.
7. Touch the **OK** button.  
The **Media volume** screen closes.

**Setting Up the Date, Time Zone & Time**

When receiving your modu™ W, you need to manually set the clock.

1. Press the **Home** key.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Settings** button.
4. Touch the **Date & time** button.  
The **Date & time** screen appears:
5. To set the date, touch the **Set date** button.  
A dialog box appears:
6. Set the date using the **Plus** and **Minus** signs next to the Month, day, and year fields.
7. Touch the **Set** button when done.

8. To set the time zone, touch the **Select time zone** button.  
The **Select time zone** screen appears:
9. Touch the desired time zone.
10. To set the time, touch the **Set time** button.  
A dialog box appears:
11. Set the time using the **Plus** and **Minus** signs next to the hours and minutes fields.
12. Touch the **Set** button when done.
13. To set the time format, touch the **User 24-hour format** button.  
Notice that when this option is on a green check box is marked next to it.
14. To set a date format, touch the **Select date format** button.  
The **Select date format** menu appear:
15. Touch the desired date format option button.

#### Setting Up the Ringer Settings

1. Press the **Home** key.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Settings** button.
4. Touch the **Sound & display** button.  
The **Sound & display** screen appears:
5. Navigate to the **Sound settings** section.
6. To set notification ringtones, touch the **Notification ringtones** option.  
The **Ringtones** menu appears:
7. Touch the desired ringtone option button.
8. Touch the **OK** button to close the **Ringtones** menu.

9. To set touch tones when using dial pad or when making screen selection, touch the **Audible touch tones** and **Audible selection** option buttons.  
Notice that when this option is on a green check box is marked next to it.
10. To set a ring tone, touch the **Phone ringtone** option.  
The **Ringtones** menu appears:
11. Touch the desired ringtone option button
12. Touch the **OK** button to close the **Ringtones** menu.

» **Setting Up Languages**

1. Press the **Home** key.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Settings** button.
4. Touch the **Locale & text** button.  
The **Locale & text** screen appears:
5. Touch the Select locale option.  
The **Locale** screen appears:
6. Touch the desired language.  
Notice that all options on the modu™ W has changed to the selected language.

## Status & Notifications

This chapter explains the notifications/status icons, panels etc.

### Status Bar

The status bar is located at the top of the modu™ W screen.

The left side of the status Bar displays the **notification** icons

The right side of the **status** bar displays the modu W status

**TIP:** When the status bar is full, touch the  (**Plus**) icon to display the hidden icons/notifications.

### » The Status Icons

The following are the status icons which provide information about the status of your modu W.

Icon	Description
	Connected to the Wi-Fi network
	Bluetooth is on
	Connected to another Bluetooth device

Icon	Description
	Airplane mode
	Alarm is set
	Speakerphone on
	Vibrate mode
	Modu W speaker is mute
	Modu W microphone is mute
	Battery is very low
	Battery is low
	Battery is full
	Battery is charging
	Data is syncing

## Notifications

### » The Notification Icons:

The following are the notification icons.

Icon	Description
------	-------------

Icon	Description
	New email message
	New SMS
	Problem with SMS delivery
	New instant message
	New voicemail
	Upcoming even
	Song is playing
	Problem with sign-in/sync
	Storage card is full
	Wi-Fi is on and wireless networks are available
	Modu™ W is connected to the computer via USB cable
	Hidden notifications
	Call in progress
	Missed call
	Call on hold
	Call forwarding
	Compass needs orientation

Icon	Description
	Uploading data
	Downloading data
	Content download
	Uploading picture to Picasa
	Uploading to Picasa finished
Insert image	No storage card installed on the modu W

» **The Notification Panel:**

You can quickly view unread messages, view missed calls, view your next alarm, listen to voicemail, and view the latest modu™ W news or application updates by checking the **Notification** panel.

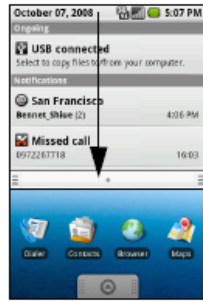

1. Notice a new notification icon is displayed in the Status bar.
2. Touch and hold the Status bar.
3. Slide your finger downward the **Home** screen in order to open the **Notifications** panel.

4.

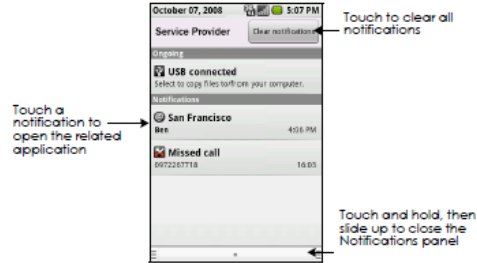

**TIP:** You can also open the **Notifications** panel by pressing the **Menu** key and touching the **Notifications** button.

The **Notifications** panel appears.

5. Touch a notification in order to open the related application.

6. Touch the **Clear all notifications** button in order to clear all notifications from the Notifications panel.
7. Touch and hold the bottom bar of the **Notifications** panel.
8. Slide your finger upward or press the **Back** key.

**TIP:** You can scroll down the **Notifications** panel in case there are many notifications.

## Applications

modu™ has selected some application to be used by you that are preinstalled on the modu W device.  
All the preinstalled and downloaded applications are located in the **Applications** tab.

### Accessing the Application Tab

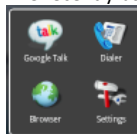

1. Press the **Home** key to access the **Home** screen.
2. Touch / touch and drag the (**Applications Tab**) button upward.  
The **Application Tab** appears:
3. Touch / touch and drag the (**Applications Tab**) button downward.

### Recently Used Applications

The recently used applications option is used to quickly open a recent application. There are up to 4 recently used applications displayed.

#### » Opening the Recently Used Applications

1. From the **Home** screen, press and hold the **Home** key.  
The recently-used applications screen opens:

2. Touch the desired icon to open the related application.

## Using the Browser

The (web) browser enables you to view web pages that were designed for viewing on a computer as well as web pages that were designed for mobile devices.

This chapter explains how to:

- Access the browser
- Access a web page
- Set your home page
- View web pages
- Change the screen orientation
- Navigate on the Web page
- Zoom in/out on a web page
- Open a new browser window
- Switching between browser windows
- Find a text within a web page
- Select links on web pages
- Download a web application
- View your Downloads
- Bookmark a web page
- Open a Bookmark
- Edit a Bookmark

### Accessing the Browser

1. Access the **Home** screen.
2. Touch the **Applications** tab.  
The **Applications** tab appears:

3. Touch the **Browser** application.  
The **Browser** screen appears:

### Browsing the Web Pages

You can view your home page, bookmarks, stored pages, and pages in the history list.

#### Important:

Use only services that you trust and that offer adequate security and protection against harmful software.

Install and use applications and other software only from trusted sources, such as applications that have passed Java Verified™ testing.

#### » Going to a Web Page:

1. Access the **Browser** application.
2. Press the **Menu** key.

The **Menu** appears:

3. Touch the **Go** option.

A web page appears:

4. Enter the web page address using the keyboard.

**Note:** As you enter the address, matching web page address will appear on the screen.

5. Touch a matching address to go directly to that web page.  
or  
Touch the **Go** button.

» **Setting Up Your Home Page:**

1. Access the **Browser** application.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Go** option.
4. Enter the URL (address) of the web page you want to use as your home page.
5. Touch the **Done** button.
6. A screen appears containing various options:
7. Press the **Menu** key.
8. Touch the **More** option.
9. Touch the **Set home page** option.

**TIP:** You can also set up your home page by performing the following steps:  
Access the **Browser** application> Press the **Menu** key >  
Touch the **Settings** option > Touch the **Set home page** option.

**Viewing Web Pages**

» **Changing the Screen Orientation to Landscape View:**

1. Verify that the **Switch orientation automatically when rotating phone** option button is selected.

**TIP:** If the **Switch orientation automatically when rotating phone** option button is not selected perform the following steps:  
 Access the **Home** screen > Press the **Menu** key >  
 Touch the **Settings** option > Touch the **Sound & display** option > Select the **Switch orientation automatically when rotating phone** option button.

2. Rotate your phone sideways to view the web page in a landscape mode.  
**Note:** The screen orientation automatically adjusts to how you hold your modu™ W.

» **Navigating on a Web Page**

1. Access the **Browser** application.
2. Press the **Menu** key.  
 The **Menu** appears:
3. Touch the **More** option.  
 A screen appears containing.... To be completed

» **Zooming In/Out on a Web Page**

1. Access the **Browser** application.
2. Press the **Menu** key.  
 The **Menu** appears:
3. Touch the **More** option.  
 A screen appears containing various options appears:

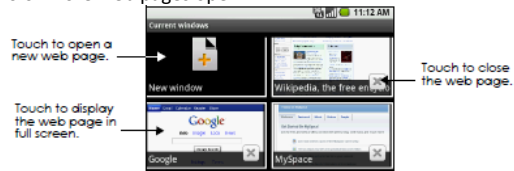

» **Opening a New Browser Window:**

1. Access the **Browser** application.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **New window** option.  
A new web page appears.

» **Switching Between Browser Windows:**

1. Access the **Browser** application.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **New window** option.  
A new web page appears.
4. Press the **Menu** key.  
The **Menu** appears:
5. Touch the **Window** option.

**Note:** This option appears in the Menu only when there are two or more web pages open.

6. Touch the browser window you want to view.
7. Touch the  (**Close**) icon on the browser window you want to close.

» **Finding Text Within a Web Page:**

1. Access the **Browser** application.
2. Access any web page.
3. Press the **Menu** key.  
The **Menu** appears:
4. Touch the **More** option.  
A screen appears containing various options.
5. Touch the **Find on page** option.

6. Enter the search item.
7. Touch the left/right arrow to go to the previous/net matching item.
8. Touch the ☐ (**Close**) icon to close the search bar.

» **Copying Text on a Web Page:**

1. Access the **Browser** application.
2. Open a web page where you want to copy text.
3. Locate the text you want to copy.
4. Press the **Menu** key.  
The **Menu** appears:
5. Touch the **More** option.  
A screen appears containing various options.

6. Touch the **Select text** option.

**TIP:** Zoom out of the page before you select text.

7. Position your finger at the start of the text you want to copy.
8. Hold and drag to the end of the text you want to copy.  
**Note:** Copied text is highlighted in pink.
9. Release your finger from the section.
10. To paste text on an email or SMS message, locate the email/SMS message.
11. Touch and hold the text box.  
An option screen appears:
12. Touch the **Paste** option.

### Managing Links, History, & Downloads

#### » Selecting Links in Web Pages:

1. Access the **Browser** application.
2. Open a web page that contains links.  
For example:

Links are enclosed in an orange or green box when selected.

The following are the available link options:

Link	Description
Web page address (URL)	<ul style="list-style-type: none"> <li>Touch the link to open the web page</li> <li>Touch and hold the link to open the menu that allows you to open: bookmarks, copy to the clipboard, or share the link via email.</li> </ul>
Email address	<ul style="list-style-type: none"> <li>Touch to send an email message to the email address.</li> <li>Touch and hold &gt; touch the <b>Copy</b> option to copy the email address to the clipboard. You can paste the email address when creating a new contact or sending a new email message.</li> </ul>

**» Checking Browser History:**

1. Access the **Browser** application.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Bookmarks** option.  
The **Bookmarks** screen appears:
4. Touch the **History** tab.
5. Touch an item to open the web page.

**» Downloading a Web Application:**

1. Verify that you are able to download web applications by following the below steps:  
the **Home** screen > Press **Menu** key > Touch the **Settings** option > Touch the **Applications** option.
2. Access the **Home** screen.
3. Press the **Menu** key.  
The **Menu** appears:
4. Touch the **Settings** option.  
The **Settings** screen appears:
5. Touch the **Applications** option.
6. Touch the **Unknown sources** check box.  
An **Attention** dialog box appears:
7. Touch the **OK** button.

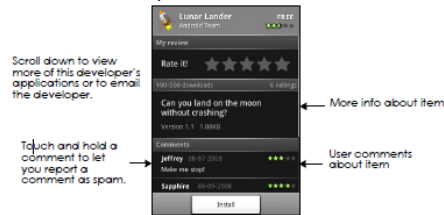

**NOTE:** All downloaded applications are automatically saved on the storage card. Make sure the SD (storage) card is installed before you download an application.

8. Now download the application by navigating to the application you want to download.
9. Touch the desired application.  
The item details screen appears:
10. Read all the necessary information before downloading the application such as costs, rating, users' comments etc.
11. Scroll down the screen to the **About the developer** section to view more application by this developer.

Below is an example:

12. Touch the **Install** button in order to download the application.
13. Open the **notification** screen to check the progress of the download.
14. Touch the **Cancel Download** button, to stop downloading the application.

The  (**content download**) icon appears in the notification area of the status bar.

The new application you have just downloaded appears in the **Applications** tab.

### » Viewing Your Downloads

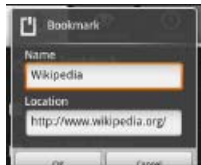

1. Access the **Browser** application.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **More** option.  
A screen appears containing various options appears:
4. Touch the **Downloads** option.  
A screen opens containing the downloads.

### Managing Bookmarks

You can store as many bookmarks as you want.

#### » Bookmarking a Web Page:

1. Access the **Browser** application.
2. Open a web page that you want to book mark.
3. Press the **Menu** key.  
The **Menu** appears:
4. Touch the **Bookmarks** option.  
The **Bookmarks** screen appears:

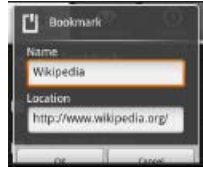

5. Touch the **Add bookmark** option from the **Bookmark** tab.
6. Enter a bookmark name in the **Name** field.
7. Touch the **OK** button.

**» Opening a Bookmark:**

1. Access the **Browser** application.
2. The **Menu** appears:
3. Touch the **Bookmarks** option.

The **Bookmarks** screen appears:

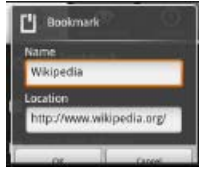

4. Touch the bookmark you want to open from the **Bookmarks** tab.  
or  
Touch and hold the bookmark you want to open > Touch the **Open / Open in new window** option from the option menu.

**» Editing a Bookmark:**

1. Access the **Browser** application.
2. Press the **Menu** key.  
The **Menu** appears:

3. Touch the **Bookmarks** option.  
The **Bookmarks** screen appears:

4. Touch and hold the bookmark you want to edit from the **Bookmarks** tab.  
An option menu appears:
5. Touch the **Edit bookmark** option.  
An edit bookmark dialog box appears:
6. Enter your changes.
7. Touch the **OK** button.

#### **Adjusting Browser Settings**

Set up or change any settings that were defined for the browser by following these steps:

1. Access the **Browser** application.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **More** option.  
A screen appears containing various options appears:
4. Touch the **Settings** option.
5. Modify relevant browser settings.

### Setting Up Voice and /or SMS Services

**NOTE:** The voice/SMS services are supplied by a third party, independent from modu. For more details click [here](#) (insert an external link). modu will not be responsible for the operation, availability of such services and modu shall not be responsible or liable, either directly or indirectly, in any way for any loss or damage of any kind incurred as a result of, or in connection with your use of such services

## Settings

This chapter explains how to use the modu™ W settings and what's available on the settings screen. This section includes the following topics:

- Volume adjustment.
- Use the storage card as an USB drive.
- Date, time zone & time set up.
- Display settings set up.
- Ringer settings set up.
- modu W settings set up.
- Language set up.

### Opening the Settings Screen

There are two ways to open the Settings screen.

- Press **Home** > **Menu** > **Settings**.
- or
- Press **Home** > **Application tab** > **Settings**.

The following are the settings options available:

Option	Description
Wireless controls	Enables you to configure your modu W connections, such as Wi-Fi, Bluetooth, Airplane mode, etc.
Sound & display	Enables you to call and notification ring tones, or set screen brightness, timeout, etc.

Option	Description
Security & location	Enables you to set the screen unlock pattern, etc.
Applications	Enables you to manage applications and installation of new programs.
SD card & phone storage	Enables you to check the available card and modu™ W internal memory, reset the modu W to its factory default settings, etc.
Date & time	Enables you to set the date, time, time zone, and date or time format.
Locale & text	Enables you to set the modu W keyboard options.
Search	Enables you to set Google search, and searchable items.
Speech synthesis	Enables you to set the speech rate, and Language.
About phone	Enables you to view the modu W status, battery use, and legal information.

#### Using the Storage Card as an USB Drive

You can use the modu™W storage (SD) card as an USB drive in order to transfer music, pictures, and other files from your computer. In order to be able to do that, you need to set your modu W SD card as your USB drive.

#### » Setting Up the Storage Card as a USB Drive

1. Connect the modu W to your computer using the USB cable.

2. Open the **Notification** panel.  
The **Notification** panel appears:
3. Touch the **USB connected** option in the **Ongoing** section.  
A **USB connected** dialog box appear:
4. Touch the **Mount** button.

**NOTE:** When selecting the Mount button, the modu™ W will not recognize the storage card when it is connected to a computer.

#### Turning Off the USB Storage

1. Open the **Notification** panel.  
The **Notification** panel appears:
2. Touch the **Turn off USB storage** option.  
The **Turn off USB storage** dialog box appears:
3. Touch the **Turn off** button.

#### Removing the Storage Card Safely while the modu™ W is On

1. Unmount the storage card to prevent corrupting/damaging the storage card by pressing the **Home** key.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Settings** button.  
The **Settings** appears:
4. Scroll down the **Settings** screen.
5. Touch the **SD card & phone storage** option.
6. Touch the **Unmount SD card** option.
7. Remove the storage card.

**Formatting the Storage (SD) Card**

1. Press the **Home** key.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Settings** button.  
The **Settings** appears:
4. Scroll down the **Settings** screen.
5. Touch the **SD card & phone storage** option.
6. Touch the **Unmount SD card** option.  
Notice that the **Format SD card** option is not enabled.
7. Touch the **Format SD card** option.  
The **Format SD card** screen appear:
8. Touch the **Format SD card** button.

**Setting Up the Display Settings**

1. Press the **Home** key.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Settings** button.
4. Touch the **Sound & display** button.  
The **Sound & display** screen appears:
5. Scroll down the screen to the **Display settings** section.
6. To set orientation automatically when rotating the modu W, touch the **Orientation** option.  
Notice that when this option is on a green check box is marked next to it.
7. To set animation when opening/closing a window, touch the **Animation** option.  
Notice that when this option is on a green check box is marked next to it.

8. To adjust the Brightness of the screen, touch the **Brightness** option.  
The Brightness dialog box appears:
9. Adjust the brightness by moving the slider to the left or right.  
Moving the slider to the left makes the screen darker.  
Moving the slider to the right makes the screen lighter.
10. Touch the **OK** button to close the screen.
11. To set the time before the screen automatically turns off, touch the **Screen timeout** option.  
The **Screen timeout** menu appears:
12. Touch the desired screen timeout option button.

#### **Getting Connected to Wi-Fi®**

Wi-Fi provides wireless Internet. In order to use your modu™ W you need access to a wireless network.

This section includes the following topics:

- Email account set up.
- Voice & SMS service set up

#### **» Turning Wi-Fi On and Connecting to a Wireless Network:**

13. Press the **Home** key.
14. Press the **Menu** key.  
The **Menu** appears:
15. Touch the **Setting** button.
16. Touch the **Wireless controls** button.  
The **Wireless controls** screen appears:
17. Touch the **Wi-Fi** option.  
Notice that the **Turn on Wi-Fi** check box is marked.  
The modu W scans for available wireless networks.

18. Touch the **Wi-Fi settings** option.

The detected Wi-Fi (wireless) networks are displayed in the Wi-Fi network section.

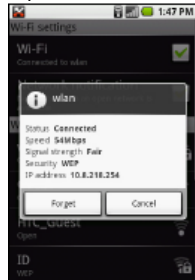

19. Touch a **Wi-Fi network** to connect to.

**TIP:** When you select an open network, you will be automatically connected to it. If you select a secured network in, enter the password and touch the **Connect** button.

#### » Checking the Wireless Network Status Using via the Status Bar:

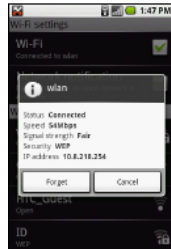

1. Look at the Status bar located at the top panel of the modu™ W.
2. If your modu W is connected, the  (**Wi-Fi**) icon appears.

The approximate signal strength is also displayed in the Status bar.

» **Checking the Wireless Network Status Using via the Wi-Fi® Network:**

1. Press the **Home** key.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Setting** button.
4. Touch the **Wireless controls** button.  
The **Wireless controls** screen appears:
5. Touch the **Wi-Fi settings** option.  
The detected Wi-Fi (wireless) networks are displayed in the Wi-Fi network section.  
Touch the wireless network that your modu™ W is connected to in order to view the status.

This screen displays the Wi-Fi network name, status, speed, signal strength, security information, and IP address.

**NOTE:** If you want to remove the wireless network settings from you modu™ W, touch the **Forget** button on the Status screen.

» **Connecting to Another Wi-Fi® Network:**

1. Press the **Home** key.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Setting** button.
4. Touch the **Wireless controls** button.  
The **Wireless controls** screen appears:
5. Touch the **Wi-Fi settings** option.  
The detected Wi-Fi (wireless) networks are displayed in the Wi-Fi network section.

**TIP:** To manually scan for available Wi-Fi networks perform the following steps:

1. Press the **Menu** key (from the **Wi-Fi settings** screen).
2. Touch the **(Scan)** button.

3. Touch another Wi-Fi network to connect to.

**Using Bluetooth®**

Using Bluetooth enables you to exchange information over a short-range distance without requiring a physical connection to a headset etc.

There are three modes to operate the Bluetooth with the modu™ W:

Mode	Description
On	Bluetooth is turned on. Your modu W can detect other Bluetooth-enabled devices but not vice versa.

Mode	Description
Off	Bluetooth is turned off. You cannot send/receive information using Bluetooth.
Discoverable	Bluetooth is turned on and all other Bluetooth-enabled devices can detect your modu W.

**NOTE:** Bluetooth is turned off by default. When you turn on Bluetooth and turn off your modu W, then the Bluetooth is turned off as well. When you turn back on the modu W then automatically the Bluetooth is turned on.

It is recommended to turn off Bluetooth when not in use in order to save battery power, also in places that using wireless devices are prohibited.

» **Turning On the Bluetooth:**

1. Press the **Home** key.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Settings** button.
4. Touch the **Wireless controls** button.  
The **Wireless controls** screen appears:
5. Touch the **Bluetooth** check box to turn on Bluetooth.

When Bluetooth is on the  (**Bluetooth**) icon appears in the Status bar.

6. Touch the **Bluetooth setting** option.  
The **Bluetooth setting** screen appears:

7. Touch the Discoverable check box to make your modu™ W discoverable to other Bluetooth devices that are within range.

» **Changing the modu™ W Name:**

Your modu W name is used as identification in a Bluetooth network.

1. Verify that the Bluetooth is on.
2. Press the **Home** key.
3. Press the **Menu** key.  
The **Menu** appears:
4. Touch the **Setting** button.
5. Touch the **Wireless controls** button.  
The **Wireless controls** screen appears:
6. Touch the **Bluetooth settings** option.
7. Touch the **Device name** option.  
The **Device name** dialog box appears:
1. Enter the name of your modu W.
2. Touch the **OK** button.

» **Connecting a Bluetooth Hands-Free Headset or Car Kit:**

Using a Bluetooth enables you to be hands-free and still be able to send and/or receive calls.

1. Verify that the Bluetooth is on.
2. Press the **Home** key.
3. Press the **Menu** key.  
The **Menu** appears:
4. Touch the **Settings** button.

5. Touch the **Wireless controls** button.  
The **Wireless controls** screen appears:
6. Touch the **Bluetooth settings** option.
7. Touch the **Bluetooth** check box.  
The modu™ W will start to scan for the Bluetooth devices within range and will display all detected devices in the **Bluetooth devices** section.
8. Touch the hands-free headset or car kit from the list.

**TIP:** To refresh the scanned list, touch the **Scan for devices** option in order to scan again.

» **Disconnecting a Bluetooth Hands-Free Headset or Car Kit:**

1. Press the **Home** key.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Settings** button.
4. Touch the **Wireless controls** button.  
The **Wireless controls** screen appears:
5. Touch the **Bluetooth settings** option.
6. Navigate to the **Bluetooth devices** section.
7. Touch and hold the connected hands-free headset or car kit.
8. Touch the **Disconnect** button.

**» Sending/Receiving Files via Bluetooth:**

To be completed

**» Turning Off the Bluetooth:**

1. Press the **Home** key.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Settings** button.
4. Touch the **Wireless controls** button.  
The **Wireless controls** screen appears:
5. Touch the **Bluetooth** check box to turn off Bluetooth.

When Bluetooth is off the  (**Bluetooth**) icon disappears from the Status bar.

## Calls

**NOTE:** The voice/SMS services are supplied by a third party, independent from modu. For more details click [here](#) (insert an external link). modu will not be responsible for the operation, availability of such services and modu shall not be responsible or liable, either directly or indirectly, in any way for any loss or damage of any kind incurred as a result of, or in connection with your use of such services.

### Making Calls

Modu™ W enables you to place calls using the Dialer.

#### » Opening the Dialer:

1. To be completed.

#### » Making a Call Using the Dialer:

1. To be completed.

#### » Making an Emergency Call:

1. To be completed.

**» Making a Call from the Call Log Tab:**

1. To be completed.

**Answering/Rejecting Calls**

Modu™ W enables you to answer and reject calls. When receiving calls from someone on your Contacts list, the modu W recognizes the contact and displays the caller's caller ID icon, name, and phone number on the incoming call screen. When receiving a call from someone who is not on your Contacts list, the modu W does not recognize the contact and thus displays only the caller ID icon and phone number on the incoming call screen.

**» Answering an Incoming Call:**

1. To be completed.

**» Rejecting an Incoming Call:**

1. To be completed.

**Call Options**

Various call options are available when a call is in progress.

The following are the call options:

## Contacts

### Creating & Managing Contacts

The Contacts list is preinstalled application available on the modu™ W. The Contacts application is similar to an online address book. It provides you a quick and easy access to the people you wish to reach. You can synchronize your existing Contacts list from your existing email account.

This section explains how to:

- View the contacts list.
- Add new contacts.
- Add favorite contacts.
- Edit and customize the contacts list.
- Communicate with the Contacts.

Notice that you can change any contacts information at any given time.

#### » Viewing Your Contacts List:

1. Access the **Home** screen.
2. Touch the **(Contacts)** icon.

The **Contacts** tab appears:

or

Press the **Call** button > touch the **Contacts** tab.

3. Touch and hold a contact or search for a contact using the **Search** field.

The contact's option menu appears:

4. Touch the **View contact** option, in order to view a specific contact's details.
5. Touch the **Back** key to return to the previous screen.

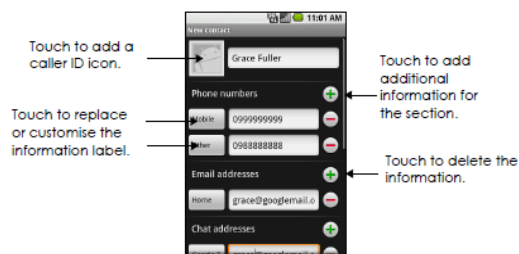

» **Adding a New Contact:**

You can add a contact to your Contacts list of in three ways:

- By creating a new contact and entering the information in your **Contacts** list
- By using a number from the call log
- By using a number from a message in your **Inbox**.

6. Access the **Contacts** list.
7. Press the **Menu** key.  
The **Menu** appears:
8. Touch the **New contact** icon.  
or  
Accessing the dialer.  
Enter the number you wish to call.  
Press the **Menu** key.  
Touch the Add contact option.  
The **Contacts** screen appears:  
Touch the Create new contact option.  
The **New contact** screen appears:

9. Touch the first field in order to enter the contact's name.  
A 16-key pad or a full keyboard is displayed according to how you hold the modu™ W.
10. Type the contact's name.
11. Touch the **Next** button.
12. Enter the contact's phone number using the keyboard.
13. Touch the **Next** button.
14. Enter the contact's Email address using the keyboard.
15. Touch the **Done** button.
16. When finished entering all the relevant information, press the **Menu** key.
17. Touch the **Done** icon.

**NOTE:** If you want all calls from this contacts list to transfer directly to your voicemail, select the **Incoming calls** check box.  
If you cannot find the **Incoming calls** check box, scroll down the **New contact** screen.

» **Searching for a Contact:**

There are two ways you can search for a contact.

- By the **fast scroll** feature.
- By the **search** option.

» **Using the Fast Scroll Feature to Search for a Contact:**

1. Access the **Contacts** tab.
2. Scroll down/up the contacts list to find your contact.  
Your list of contacts begins to scroll quickly. The first letter of the first contact name in the list appears in a box, and then advances alphabetically according to the first letter in the names in your contact list.

**NOTE:** Only the letters that represent names that you have entered appear. For example, if no names begin with the letter "p", that letter will not appear during fast scrolling.

3. When the first letter of the name that you are looking for appears, touch the letter in the box.  
The list stops scrolling and the first contact with the selected letter is displayed.

» **Using the Search Option to Search for a Contact:**

1. Access the **Contacts** tab.
2. Press the **Menu** key.  
The option menu appears:
3. Touch the **Search** option.

4. Enter the first letter or first two letters of the contact's name you are looking for.
5. Touch the **Search** icon.

» **Deleting a Contact:**

1. Access the **contacts** tab.
2. Touch and hold a contact's name.  
The contact's option menu appears:
3. Scroll down the option menu.
4. Touch the **Delete contact** option.  
A **Delete** dialog box appears:
5. Touch the **OK** button to delete the contact.

» **Deleting All Your Contacts:**

1. Access the **contacts** tab.
2. Press the **Menu** key.  
The menu appears:
3. Touch the **Delete all** option.  
A **Delete all** dialog box appears:
4. Touch the **OK** button to delete the contact.

» **Adding Favorite Contacts:**

The **Favorites** tab is used to filter your Contacts list.

1. Access the Contact list.  
The **Contacts** list appears:

2. Press and hold the desired contact in order to open the contact's option menu.  
The contact's option menu appears:
3. Touch the **Add to favorites** option.  
The contact is now added to the favorites list displayed in the **Favorites** tab.

**NOTE:** A colored (yellow) star appears next to the contact name in accessing the contact details screen.

» **Viewing Favorite Contacts:**

1. Access the **Favorites** tab.

» **Removing a Contact from the Favorites Tab:**

1. Access the **Favorites** tab.
2. Touch and hold the contact you wish to remove.  
The contact's option menu appears:
3. Touch the **Remove from favorites** option.

» **Editing Contacts Information:**

You can edit any information and setting related to contacts. For example: Contact's name, phone number, address, assigning an image for a contact, ringtones and incoming calls for a particular contact. In order to edit any of this information follow the below steps:

1. Access the **Contacts** list.  
The **Contacts** list appears:

2. Touch and hold the contact's name you wish to edit its details.  
The contact's option menu appears:
3. Touch the **Edit contact** option.  
The **Edit contact** screen appears:
4. Edit the contact information.
5. Touch the **Done** button to save.

**NOTE:** To ignore all changes you just made, touch the **Revert** option on the **Edit contact** screen.

» **Changing the Contact's Default Phone Number:**

1. Access the **Contacts** list.  
The **Contacts** list appears:
2. Touch the contact in order to open the contact details screen.  
The contact's details screen appears:
3. Touch the **Cell mobile** option which is the default phone number.
4. Touch the **Make default number** option.  
An indication that the phone number displayed is the default phone number is the  (**Check**) icon appears next to the phone number.
5. Press the **Back** key when done.

» **Communicating with Your Contacts:**

The following communication methods are available from the Contacts list to the contact's default phone number:

- Call / send a text.

- Send multimedia messages.

Other communication methods are available from the contact's details screen.

» **Calling a Contact:**

1. Access the **Contacts** list.  
The **Contacts** list appears:
2. Touch the contact's name in order to open the contact details screen.  
The contact's details screen appears:
3. Touch a phone number.

» **Sending a Text/Multimedia Message to a contact:**

Notice that the contact you about to send a text/multimedia message must have a mobile phone number in their contact details screen.

1. Access the **Contacts** list.  
The **Contacts** list appears:
2. Touch the contact in order to open the contact option menu.  
The contact option menu appears:
3. Touch the **Send SMS** option.  
A text compose screen opens:
4. Enter the text you wish to send using the 16-key pad or the onscreen full keyboard.

**» Sending an Email to a Contact:**

Notice that the contacts you about to send an Email to have an Email address in their contact details screen.

1. Access the **Contacts** list.  
The **Contacts** list appears:

The contact option menu appears:
3. Touch the **Email home** option.  
A compose screen opens:
4. Type your email content using the 16-key pad or the onscreen full keyboard.

**NOTE:** If you have more than one Email accounts set up on the modu™ W, you will be promoted to select which Email account you wish to use in order to send the message.

**» Importing/Exporting Contacts:**

For more information, refer to the Preparing Your modu™ W For Use.

**» Displaying Contacts Group:**

To be completed.

1. Access the **Contacts** list.  
The **Contacts** list appears:

2. Touch the contact in order to open the contact option menu.
1. Connect the micro USB connector on your headset to the micro USB port on your modu™ phone.  
A message appears indicating the headset is connected to your modu™ phone.
2. Accept or end a call by pressing the Accept/End key on the headset.

## Entering Text

### Using the Onscreen Keyboards

The modu™ W offers two types of keyboards:

- Landscape onscreen keyboard.
- 16-key keyboard

#### » Entering Text Using the Landscape Onscreen Keyboard:

When entering text, you can choose to use the landscape orientation by rotating the modu™ W horizontally. The advantage of the landscape onscreen keyboard is that it lets you type easily.

**NOTE:** If your modu W does not display the landscape keyboard, verify that the screen orientation change is set on automatically.

Press **Home** > **Menu** > **Settings** > **Sound & display** > **Orientation**.

#### » Entering Text Using the 16-key Keyboard:

When entering text, you can choose to use the 16-key keyboard by leaving the modu W vertically.

**Entering Numbers & Symbols**

The modu™ W enables you to switch to the numeric and symbol onscreen keyboard to let you enter number and common symbols.

**Adjusting Text Input & Keyboard Settings**

Modu™ W enables you to set onscreen keyboard options such as vibrate and/or emit a sound when you touch a key, auto-capitalization, auto-complete, etc..

1. Access the **Home** screen.  
The **Home** screen appears:
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Settings** option.  
The **Settings** screen appears:
4. Touch the **Locale & text** option.  
The **Locale** screen appears:
5. Scroll down to the Text settings section.
6. Touch the **Android keyboard** in order to set it up.  
The **Android keyboard** screen appears:
7. Set the relevant settings.  
Touch the **Vibrate on keyboard** option button in order to enable the keyboard vibrates.  
Touch the **Sound on keyboard** option button in order to enable sound when pressing any keys on the keyboard.  
Touch the **Auto-capitalization** option button in order to enable this option.
8. Touch the **Back** key to return to the previous screen.

## Managing Your Time

### Using the Calendar

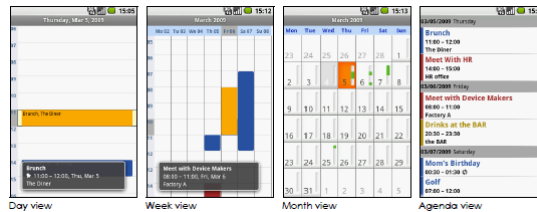

Modu™ W offers you the use of calendar to create and manage events, meetings, and appointments.

#### » Accessing Your Calendar:

1. Access the **Home** screen.
2. Touch the **Applications** tab.  
The **Applications** tab appears:
3. Touch the Calendar icon.  
The Calendar appears:

#### » Calendar Views:

You can choose how you want to view your calendar. You can display the calendar in a daily, weekly, monthly, or agenda view.

#### » Changing the Calendar View:

1. Access the **Calendar** icon.  
The Calendar appears:

2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the desired view, such as **Agenda**, **Day**, **Week**, or **Today**.

» **Creating Events:**

An event can be an appointment, meeting, etc..

1. Access the **Calendar** icon.  
The Calendar appears:
2. Press the **Menu** key.

3. Touch the **New event** option.  
The New event details screen appears:
4. Enter the event name using the keyboard.
5. Touch the **Next** button to continue.
6. Enter the even location.
7. Touch the **Next** button to continue.
8. Enter the event description.
9. Touch the **Done** button when finished.  
You can scroll down the Event details screen to set a reminder while creating it.

**NOTE:** If you wish to set a time frame for the event you create, touch the **From** and **To** and adjacent time fields to set them.  
If you have an all day event, touch the **All day** check box in order for this option to be enabled.

**» Setting an Event Reminder:**

An event reminder allows you to set a reminder for a particular event. This way it would be easier for you not to forget important event that appear in your calendar.

1. Access the **Calendar** icon.

The **Calendar** appears:

2. Touch the event you wish to add a reminder to.

The **View event** screen appears:

3. Touch the **Add reminder** icon.

If there is a set default reminder then it will be displayed automatically according to the set default reminder time.

4. Touch the **Reminders** dropdown list in order to change the reminder time.

The Reminder option menu appears:

5. Touch the option button next to the desired reminder time.

6. Press the **Back** key to return to the calendar view.

The modu™ W automatically saves the changes made.

**NOTE:** When an event reminder arrives you have the following options to choose from:

- View the event by touching the event displayed on the screen.
- Dismiss the event by touching the **Dismiss** / **Dismiss all** button.
- Snooze the event by touching the **Snooze** / **Snooze all** button.

**» Editing an Event:**

1. Access the **Calendar** icon.  
The **Calendar** appears:
2. Touch the event you wish to edit.  
The **View event** screen appears:
3. Press the **Menu** key.  
The **Menu** appears:
4. Touch the **Edit event** option.  
The **Event details** screen appears:
5. Change the necessary information
6. Touch the **done** button when finished.  
The modu™ W automatically save the changes made.

**NOTE:** You also have an option to edit the event from the editing option.

**» Deleting an Event:**

1. Access the **Calendar** icon.  
The **Calendar** appears:
2. Touch the event you wish to delete.  
The **View event** screen appears:
3. Press the **Menu** key.  
The **Menu** appears:
4. Touch the **Delete event** option.  
The Delete dialog box appears:
5. Touch the **OK** button to delete.

### » Calendar Settings:

You can set default reminder settings for your calendar.

To access the **Settings** screen to change any of the existing calendar settings, follow these steps:

1. Access the **Calendar** icon.  
The **Calendar** appears:
2. Press the **Menu** key.  
The **Menu** appears:

**Replay all** – Enables you to replay an email to all recipients.  
**Mark as unread** – Enables you to mark an read email as unread.
6. Touch the relevant option button.

**NOTE:** You can view the email you have just sent by touching the **Sent** folder.

## Photos & Multimedia

You can view, manage, or send images and videos.  
You can also set an image as your wallpaper background for the modu™ W **home** screen.

### Using the Gallery

The Gallery enables you to work with photos.

This section describes how to:

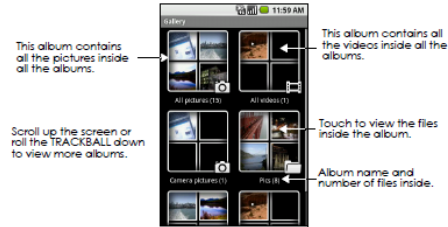

- View Photos
- Browse through Photos
- Photo Zoom In/Out,
- View a Photo in Landscape
- Rotate a Photo
- Save a photo
- Crop a Photo
- Send Photos via Email
- Send Photos via Text Messaging
- Upload Photos to Picasa

#### » Opening/Closing the Photo Gallery:

1. Access the **Home** screen.
2. Touch the **Applications** tab.

3. Touch the **Gallery** icon.

The **Gallery** screen appears:

4. Press the **Back** key, to close and exit the **Gallery** application.

**NOTE:** The modu™ W multimedia is stored on the storage (SD) card.  
It may take a few second to load all your photos on the **Gallery** screen.

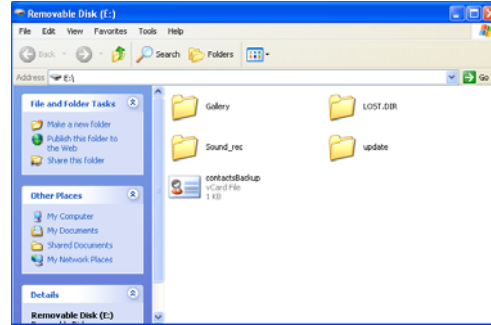

### Working with the Photo Gallery

#### » Adding Photos to the Gallery

1. Access the folder that your photos are located.
2. Select the relevant photos.
3. Click the **Copy** option.
4. Connect the USB cable to your computer and the modu W.  
The **USB mode** menu appears:
5. Touch the **PC connection** option button.

6. Touch the **OK** button.

A **Removable Disk** window appears on your computer:

7. Double click the **Gallery** folder.
8. Paste the photos into the folder.
9. Unplug the USB cable.  
or  
Access the **Notifications** screen and touch the **Turn Off USB** option.
10. Go back to the **Home** screen.
11. Access the **Gallery** application.  
For more information, refer to the **Opening/Closing the Photo Gallery** section, P. 127.  
The **Gallery** screen appears and you can view the photos.

#### » **Browsing Through Photos**

1. Access the **Gallery** screen.  
Refer to the **Opening/Closing the Photo Gallery** section on

P. 127.

The **Gallery** screen appears.

2. Touch the album you wish to view.
3. Touch the photo you want to view.
4. Browse through the photos using the (right arrows) to browse to the next photo and the left arrow to browse to the previous photo.

» **Zooming In / Out Photos**

1. Access the **Gallery** screen.  
Refer to the **Opening/Closing the Photo Gallery** section on P. 127.  
The **Gallery** screen appears.
2. Touch the album you wish to view.
3. Touch the photo you want to view.
4. Use the (**Magnifying Glass**) to zoom in/out the selected photo.

» **Viewing Slideshow**

1. Access the **Gallery** screen.  
Refer to the **Opening/Closing the Photo Gallery** section on P. 127.  
The **Gallery** screen appears.
2. Touch the album you wish to view.
3. Press the **Menu** key.  
The **Menu** appears:
4. Touch the **Slideshow** option.  
The **Slideshow** starts.
5. Touch anywhere on the screen to exit the slideshow.

**Note:** You can set the time of the photos interval in the slideshow by accessing the folder you want to view > **Menu** > **Settings** > **Slideshow interval**.

» **Viewing Photos in Landscape**

1. Access the **Gallery** screen.  
Refer to the **Opening/Closing the Photo Gallery** section on P. 127.  
The **Gallery** screen appears.
2. Touch the album you wish to view.
3. Touch the photo you want to view.
4. Rotate the modu™ W horizontally as landscape.  
**Note:** Make sure that your modu™ W is set to be switched its orientation automatically when rotating in the **Home** screen > **Menu** > **Settings** > **Orientation**.

» **Rotating Photos**

5. Access the **Gallery** screen.  
Refer to the **Opening/Closing the Photo Gallery** section on P. 127.  
The **Gallery** screen appears.
6. Touch the album you wish to view.
7. Touch the photo you want to view.
8. Press the **Menu** key.  
The **Menu** appears:
9. Touch the **Rotate** option.  
The **Rotate** menu appears:
10. Touch the relevant option (Rotate left / Rotate right).

**» Saving Photos**

1. Access the **Gallery** screen.  
Refer to the **Opening/Closing the Photo Gallery** section on P. 127.  
The **Gallery** screen appears.
2. Touch the album you wish to view.
3. Touch the photo you want to view.
4. Press the **Menu** key.  
The **Menu** appears:
5. Touch the **Save** option.

**» Cropping a Photo**

1. Access the **Gallery** screen.  
Refer to the **Opening/Closing the Photo Gallery** section on P. 127.  
The **Gallery** screen appears.
2. Touch the album you wish to view.
3. Touch the photo you want to view.
4. Press the **Menu** key.  
The **Menu** appears:
5. Touch the **Crop** option.  
The **Crop** menu appears:
6. Touch and hold anywhere on the selected photo and drag to locate the crop margins.
7. To delete, touch the **Discard** button.
8. To save, touch the **Save** button.

**» Sending Photos Via Email**

1. Access the **Gallery** screen.  
Refer to the **Opening/Closing the Photo Gallery** section on P. 127.  
The **Gallery** screen appears.
2. Touch the album you wish to view.
3. Touch the photo you want to view.
4. Press the **Menu** key.  
The **Menu** appears:
5. Touch the **Share** option.  
or  
Touch the **Share** icon located on top of the displayed photo.  
The **Share** menu appears:
6. Touch **Bluetooth Send** option.  
**Note:** If Bluetooth is not turned on, you will be asked to turn it on.  
To be completed

**» Sending Photos Via Text Messaging**

1. Access the **Gallery** screen.  
Refer to the **Opening/Closing the Photo Gallery** section on P. 127.  
The **Gallery** screen appears.
2. Touch the album you wish to view.
3. Touch the photo you want to view.
4. Press the **Menu** key.  
The **Menu** appears:
5. Touch the **Share** option.  
or

Touch the **Share** icon located on top of the displayed photo.  
The **Share** menu appears:

6. Touch **Messaging** option.  
To be completed

#### » Deleting a Photo

1. Access the **Gallery** screen.  
Refer to the **Opening/Closing the Photo Gallery** section on P. 127.  
The **Gallery** screen appears.
2. Touch the album you wish to view.
3. Touch the photo you want to view.
4. Press the **Menu** key.  
The **Menu** appears:
5. Touch the **Delete** option.  
A **Delete** dialog box appears:
6. Touch the **Delete** button.

**Note:** You can also delete a photo from the Gallery screen > Select folder > Menu > Multiselect > Select a photo > Delete.

#### » Photo Gallery Settings

1. Access the **Gallery** screen.  
Refer to the **Opening/Closing the Photo Gallery** section on P. 127.  
The **Gallery** screen appears.
2. Touch the album you wish to view.
3. Press the **Menu** key.  
The **Menu** appears:

4. Touch the **Settings** option.  
A **Settings** screen appears:
5. To select the **Display size** of the pictures/videos, touch the **Display size** option.  
The options are **Small** or **Large**.
6. To select the sort order of pictures/videos, touch the **Sort order** option.  
The options are: **Newest first**, **Newest last**.
7. To show a confirmation message before deleting a picture/video, touch the **Confirm deletions** check box.
8. To set how long each slide displays in the slideshow, touch the **Slideshow interval** option.
9. To select the effect used when moving from one slide to the next, touch the **Slideshow transition** option.  
The options are: **fade in & out**, **Slide left – right**, **Slide up-down**, **Random selection**.
10. To define to play a slideshow more than once, touch the **Repeat slideshow** check box.
11. To set to show pictures in random order, touch the **Shuffle slides** check box.

**» Working with Videos:**

The Gallery enables you to working with videos as well.

This section describes how to:

- Watch a video
- Send a video via Email
- Send a video via text messaging
- Share a video on YouTube

The modu™ W video player is available as an application.

1. Access the **Home** screen.  
Refer to the **Viewing Your Contacts List** section on P. 69.
2. Touch the **Applications** tab.

**Using the YouTube™**

To be completed.

**» Opening / Closing YouTube™:**

1. To be completed.

**» Watching Videos:**

1. To be completed.

**» Searching for Videos:**

1. To be completed.

**» Clearing the Search History:**

1. To be completed.

**» Sharing Videos:**

1. To be completed.

**Using Music – TuneWiki**

To be completed.

**» Copying Music into the Storage Card:**

## Using the SlideME™ Marketplace

### Using the SlideME™ Marketplace

To be completed.

#### » Opening / Closing the SlideME™ Marketplace:

1. To be completed.

#### » Getting Help:

1. To be completed.

#### » Finding Applications :

1. To be completed.

#### » Installing Applications:

1. To be completed.

#### » Managing Applications:

1. To be completed.

#### » Uninstalling (Removing) Applications:

1. To be completed.

## Managing Your modu™ W

This chapter discusses how to manage your modu™ W. It includes the following topics:

- Manage internal and storage (SD) card memory
- How to reset your modu W

### Managing Memory

#### » Viewing Available Memory:

In order to see how much internal modu™ W memory is available for use, follow these steps:

1. Access the **Home** screen.
2. Touch the **Menu** key.  
The **Menu** appears:
3. Touch the **Settings** option.  
The **Settings** screen appears:
4. Touch the **SD card & phone storage** option.  
**Note:** You might need to scroll down the **Settings** screen. The available internal modu W memory is displayed in the **Internal phone storage** section.

#### » Viewing Available Storage (SD) Card Memory:

1. Access the **Home** screen.
2. Touch the **Menu** key.  
The **Menu** appears:

3. Touch the **Settings** option.  
The **Settings** screen appears:
4. Touch the **SD card & phone storage** option.  
**Note:** You might need to scroll down the **Settings** screen.  
The available internal modu W memory is displayed in the **SD card** section.

» **Freeing Up More Memory/Storage Card Space:**

If you run out of memory space, you can do one of the following:

- Clear all temporary Internet field and Browser history information.
- Uninstall programs/applications you downloaded from the SlideMe™ Marketplace that you no longer use.

» **Cleaning Application Cache & Data:**

1. Access the **Home** screen.
2. Touch the **Menu** key.  
The **Menu** appears:
3. Touch the **Settings** option.  
The **Settings** screen appears:
4. Touch the **Applications** option.  
**Note:** You might need to scroll down the **Settings** screen.
5. Touch the **Manage applications** option.  
The **Manage applications** screen appears:
6. Touch the application whose cache or data you want to delete.

**TIP:** Press the **Menu** key to display the **Sort / Filter** option.

7. Touch the **Clear data** / **Clear cache** option.

» **Uninstalling Third-Party Applications:**

You can uninstall any applications you want that you have downloaded.

You cannot uninstall applications that are preinstalled and came with the modu™ W.

1. Access the **Home** screen.
2. Touch the **Menu** key.  
The **Menu** appears:
3. Touch the **Settings** option.  
The **Settings** screen appears:
4. Touch the **Applications** option.  
**Note:** You might need to scroll down the **Settings** screen.
5. Touch the **Manage applications** option.  
The **Manage applications** screen appears:
6. Touch the application you want to remove.
7. Touch the **Uninstall** option.

**Resetting modu™ W**

Resetting your modu™ W deletes all the data that was saved and downloaded. After resetting, the modu W is back to its initial state. You need to set all the modu W settings from the beginning including contacts, Email account, etc.

» **Resetting modu™ W:**

1. Access the **Home** screen.

2. Touch the **Menu** key.  
The **Menu** appears:
3. Touch the **Settings** option.  
The **Settings** screen appears:
4. Touch the **SD card & phone storage** option.  
**Note:** You might need to scroll down the **Settings** screen..
5. Navigate to the **Internal phone storage** section.
6. Touch the **Factory data reset** option.  
The **Factory data reset** screen appears:
7. Touch the **Reset phone** button.  
**Note:** You might need to enter your screen unlock pattern.
8. Touch the **Erase everything** option.

## FM Radio

You can manually tune in to a station or choose to automatically search for a station.  
To use the FM radio, you need to connect your modu™ W (3.5) headset.

### Connecting the modu™ W Headsets

1. Connect the modu W headsets to it port located on the left sideways panel of the modu W.

### Accessing & Listening to the Radio

1. Access the **Home** screen.
2. Touch the **Applications** tab.  
The **Applications** tab appears:
3. Touch the **FM Radio** application.  
The Fm Radio is open and on.
4. You can perform the following actions:
  - To listen to the next station or the previous station, touch (**previous** icon) or (**next** icon).
  - To adjust the volume, touch (**up**) or (**down**) keys.
  - To switch speakers on/off, touch the **Menu** key > touch the **Speaker** button.
  - To play the Fm radio in the background, touch the **Menu** key > touch the **Play Background** button.

- To use the seek option, touch the **Menu** key > touch the **Seek** button > Type the channel number you want to search for > Touch the **OK** button.
- To save a channel, search for the channel you want to save > touch the **Menu** key > touch the **save** button.
- To change the radio's setting, touch the **Menu** key > touch the **Setting** button.
- To close the Fm radio, touch the **Menu** key > touch the **Exit** button. You will return to the **Home** screen.

### Searching for Stations Automatically

You can automatically search for channels you can save up to 10 stations, which are then saved in your station list.

**NOTE:** Stations that are found in the automatic search overwrite the stations previously saved in the station list.

On the **FM radio** screen, tap **options (icon)**, and then tap **quick 10 stations**.

**NOTE:** You can tap **stop** to end the search before the scan is completed. The stations that were found before you stopped the scan are then saved in your station list.

When the phone finishes searching, the **station list** screen appears, listing the stations found by the scan.

**Selecting & Listening to a Radio Station from the Station List**

1. Access the **Fm Radio** application.  
The radio appears on the screen.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Setting** option.  
The **Fm Radio** screen appears:
4. Touch the **Show channel list** located in the **Channel settings** section.  
The station list is displayed.
5. Touch and hold the desired channel to open the channel's option menu.  
The option menu appears:
6. Touch the **Play** button.

**Manually Tune to a Frequency**

You can manually set a frequency between 87.5 MHz and 108.0 MHz.

1. Access the **Fm Radio** application.  
For more information, refer to the **Accessing & Listening to Radio** section on P. 140.  
The radio appears on the screen.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Setting** option.  
The **Fm Radio** screen appears:
4. Scroll down the to the **Advanced Settings** section of the **Fm Radio** screen.

5. Touch the **Radio Band** option.  
A **Select a band** menu appears:
6. Touch the relevant band option button.

#### **Manually Save a Station in the Station List**

1. On the **FM radio** screen, tune the radio to the desired frequency.
2. Tap **options (icon)** and then tap **save station**.  
The **station list** screen appears.
3. Select the desired station list location that you want to use (0 through 9).
4. If the location is empty, a message indicates that the station was saved.
5. If you are asked whether you want to overwrite the selected location:
6. Tap **yes**.

#### **Managing Your Radio Stations**

1. Access the **Fm Radio** application.  
For more information, refer to the **Accessing & Listening to Radio** section on P. 140.  
The radio appears on the screen.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Setting** option.  
The **Fm Radio** screen appears:

4. Touch the **Show channel list** located in the **Channel settings** section.  
The station list is displayed.
5. Touch and hold the desired channel to open the station's options menu: play, delete or rename it
  - **Play** – Enables you to listen to a station.
  - **Delete** – Enables you to remove a station from the list.
  - **Rename** – Enables you to change a station's name.

#### **Remove a Station from the Station List**

1. Access the **Fm Radio** application.  
For more information, refer to the **Accessing & Listening to Radio** section on P. 140.  
The radio appears on the screen.
2. Press the **Menu** key.  
The **Menu** appears:
3. Touch the **Setting** option.  
The **Fm Radio** screen appears:
4. Touch the **Show channel list** located in the **Channel settings** section.  
The station list is displayed.
5. Touch and hold the channel you want to delete.  
The Channel's option menu appears:
6. Touch the **Delete** button.

## Sound Recorder

The **Sound Recorder** is an application which enables you to use the modu™ W as a voice recorder.

This chapter explains how to:

- Access the sound recorder
- Record
- Play the saved recorded voice records
- Delete the saved recorded voice records

### Accessing the Sound Recorder

1. Access the **Home** screen.
2. Touch the **Applications** tab.  
The **Applications** tab appears:
3. Touch the **Sound recorder** application.  
The **Sound recorder** screen is displayed.

### Recording Using the Sound Recorder

1. Access the **Sound Recorder** application.  
Refer to the **Accessing the Sound Recorder** section on P.146.
2. Touch the **Record** icon.  
There is an indication on the Sound Recorder screen that it is now in the Recording mode.
3. Record what you need to.
4. Touch the **Stop** icon when done.  
The duration time of the recorded record is displayed on the screen.

5. Touch the **Save** button, to save what you have just recorded.  
or
6. Touch the **Discard** button, to delete what you have just recorded.

**Playing the Recorded Records**

1. Access the **Home** screen.
2. Touch the **Applications** tab.  
The **Applications** tab appears:
3. Touch the **File Manager** application.  
The **File Manager** screen appears:
4. Touch the **Sound\_rec** folder option.  
This is where all the records you have recorded are saved.  
The record folder appears:
5. Touch the desired record to play it.

**Deleting a Saved Recorded Record**

1. Access the **Home** screen.
2. Touch the **Applications** tab.  
The **Applications** tab appears:
3. Touch the **File Manager** application.  
The **File Manager** screen appears:
4. Touch the **Sound\_rec** folder option.  
This is where all the records you have recorded are saved.  
The record folder appears:
5. Press the **Menu** key.  
The **Menu** appears:

6. Touch the **Delete** button. Touch and hold > option menu > delete.

## File Manager

The **File Manager** is an application which enables you to manage all files saved on the SD (storage) card.

This chapter explains how to:

- Access files from the storage (SD) card
- Record
- Manage files such as: copy, cut, paste, rename and delete files.

### Accessing the File Manager

1. Access the **Home** screen.

2. Touch the **Applications** tab.

The **Applications** tab appears:

3. Touch the **File Manager** application.

The **File Manager** screen is displayed.

The **File Manager** screen contains various folders such as:

**Gallery** – Contains all files that were saved in the Gallery application.

**Sound\_rec** – Contains all files that were recorded using the Sound Recorder application.

**TIP:** You can use the sorting / filtering options anywhere in the **File Manager** application by pressing the **Menu** key.

- The **Small to Big / Big to Small** options enable you to sort the files in the displayed list.
- The **Arrangement** option enables you to filter the files in the displayed list according to their Name, Size, Type, or Modification Time.

### Managing Files in the File Manager Application

1. Access the **File Manager** application.  
Refer to the **Accessing the File Manager** section on P.149.  
The **File Manager** screen appears:
2. Touch the relevant folder that contains the file you want modify.  
A folder opens displaying all the files it contains.
3. Touch and hold the relevant folder on which you want modify the file.  
The **File Operation** menu appears:

The **File Operation** menu offers the following actions:

File Operation	Description
Copy	Enables you to copy a file to another folder/location in the File Manager application.

File Operation	Description
Cut	Enables you to cut a file to another folder/location in the File Manager application.
Paste	Enables you to paste the copied/cut file to its new location in the File Manager application.
Delete	Enables you to delete a file from the SD (storage) card.
Rename	Enables you to rename the selected file.

» **Copying & Pasting Files:**

You can copy a file and paste it to another folder/location in the **File Manager** application.

1. Access the **File Manager** application.  
Refer to the **Accessing the File Manager** section on P.149.  
The **File Manager** screen appears:
2. Locate the file you want to copy.
3. Touch and hold the relevant file.  
The **File Operation** menu appears:
4. Touch the **Copy** button.
5. Navigate to the location/folder that you want place the file.
6. Touch and hold anywhere on the screen.  
The **File Operation** menu appears:
7. Touch the **Paste** button.

**» Cutting & Pasting Files:**

You can cut a file from one location and paste it at another folder/location in the **File Manager** application.

1. Access the **File Manager** application.  
Refer to the **Accessing the File Manager** section on P.149.  
The **File Manager** screen appears:
2. Locate the file you want to cut.
3. Touch and hold the relevant file.  
The **File Operation** menu appears:
4. Touch the **Cut** button.
5. Navigate to the location/folder that you want place the file.
6. Touch and hold anywhere on the screen.  
The **File Operation** menu appears:
7. Touch the **Paste** button.

**» Deleting Files:**

You can delete file from the **File Manager** application. Notice that when you delete files from the **File Manager** application, the files are deleted from the SD (storage) card.

1. Access the **File Manager** application.  
Refer to the **Accessing the File Manager** section on P.149.  
The **File Manager** screen appears:
2. Locate the file you want to delete.
3. Touch and hold the relevant file.  
The **File Operation** menu appears:
4. Touch the **Delete** button.  
A warning dialog box appears:

5. Touch the **OK** button to delete the file.

» **Renaming Files:**

You can change the default names of the file to anything that you want by using the renaming option.

1. Access the **File Manager** application.  
Refer to the **Accessing the File Manager** section on P.149.  
The **File Manager** screen appears:
2. Locate the file you want to rename.
3. Touch and hold the relevant file.  
The **File Operation** menu appears:
4. Touch the **Rename** button.  
A **Rename** warning dialog box appears:
5. Enter the desired file name in the **Please input renaming file's name** field.
6. Touch the **OK** button.

## Service Messages

Wireless Access Protocol (WAP) "push" messages allow WAP content to be automatically transferred to your phone. A WAP "push" is a specially encoded message that includes a link to a WAP or web address.

The following WAP service messages are supported:

- Service indication messages, which notify you that new WAP content is available
- Service load messages, which automatically link your phone to the content (depending on the security level set in your phone)

In addition, you can send your service provider, and receive from your service provider, other types of service requests and messages, such as activation commands for network services. This service may not be available in all regions.

### Receive a service message

Service messages can be initiated by your service provider via a phone call, text message, or the web. When you receive a service message, your modu™ phone tells you that you have a new message.

7. Tap **close**.

**NOTE:** There is no need to view the message.

A message informs you that the new network settings were received, and asks you whether you want to install them.

8. Tap **yes**.

A message asks whether you want to apply the settings.

9. Tap **yes**.

A series of screens notifies you that the settings were applied to your modu™ phone.

**View a WAP service message**

10. On the **home** screen, swipe up.  
The main menu appears.
11. Tap **messages > service messages**.
12. Select the desired message.  
The **options** menu appears.
13. Tap **view**.

### General Information

#### Care and maintenance of your modu™ W device

- Keep the device dry. Any type of liquid or moisture can damage the device.
- Do not store in areas that contain dust or dirt.
- Do not store in areas of extreme hot or cold temperatures.
- Do not open the device.
- Do not handle the device in a rough manner. Dropping, banging or shaking the device can break internal circuit boards and fine mechanics.
- Use a soft dry cloth to clean the screen.

#### About your modu™ W device

- The wireless device described in this guide includes Wi-Fi® connectivity. Contact your Internet Service Provider (ISP) for more information about the availability and coverage of your Wi-Fi network.
- Your modu W device includes preinstalled content provided by third parties, independent from modu ("Third Party Content"). Your use of the Third Party Content is subject to the relevant Third Party Content provider's terms and conditions as determined by such Third Party Content provider. modu will not be responsible for the operation, availability or service of the Third Party Content and modu shall not be responsible or liable, either directly or indirectly, in any way for any loss or damage of any kind incurred as a result of, or in connection with your use of the Third Party Content. Third Party Content is the property of its respective Third Party Content provider and

is protected by applicable copyright law. You are prohibited from reproducing, disseminating, selling, distributing, publishing, circulating or commercially exploiting any of the Third Party Content in any manner without the express written consent of the respective Third Party Content provider. modu reserves the right to remove and/or replace any preinstalled content, without notice or obligation. **MODU MAKES NO WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, REGARDING THE PRE-INSTALLED THIRD PARTY CONTENT.**

- When you use the features in this device, obey all laws and respect privacy and legitimate rights of others.
- When you use images and/or media, obey all laws and respect local customs as well as the privacy and legitimate rights of others.

Warning: this device must be on to use any features. Do not switch the device on if its use may cause interference or danger.

**Support and contact information**

To contact modu support, go to [www.modumobile.com](http://www.modumobile.com).

## Safety

Read the following precautions carefully to avoid dangerous situations and to ensure ideal performance of your modu™ W device.

### Symbols and information

**Switch On Safely.** Do not turn your modu W device on anywhere that it is prohibited or if it may cause interference or damage.

**Road Safety.** Safety comes first. Always keep your hands free while driving. Obey all traffic laws.

**Interference.** As with all wireless devices, interference may affect performance.

**Switch Off In Hospitals.** Follow all hospital rules. Turn your modu W device off near medical equipment.

**Switch Off In Aircraft.** Follow all airline rules. As with all wireless devices, your modu W device may cause interference in aircraft.

**Switch Off When Refueling.** Do not use your modu W device near fuel or chemicals. Turn off your modu W device while refueling.

**Switch Off Near Blasting.** Do not use your modu W device near blasting. Follow all restrictions.

**Use Sensibly.** Use your modu W device only in the normal manner described in this User Guide.

**Qualified Service.** Only qualified personnel may repair or service your modu™ W device.

**Enhancements and Batteries.** Use only approved batteries and parts. Do not connect to products that are not supported by your modu W device.

**Water Resistance.** Your modu W device is not water resistant. Keep away from all liquids.

**Backup Copies.** Remember to back up all data stored in your modu W device.

**Connecting to Other Devices.** Read all instructions before connecting to another device. Do not connect to products not supported by your modu W device.

**No  
emergency  
calls**

**This modu W device is not a replacement for your ordinary telephone and cannot be used for emergency calls**

#### AC adapter

Follow these guidelines to ensure your AC adapter (charger) works properly.

- Avoid penetration of water or humidity into the AC adapter.
- Keep the AC adapter away from extreme temperatures such as ovens, or places exposed to the sun.
- Keep the AC adapter away from lamps, flames, cigarettes, cigars, etc.

- Avoid dropping objects or splashing liquids, including acids, on the AC adapter.
- For indoor use only. Do not use in places that are exposed to rain, sun, or flammable fumes.
- Plug the AC adapter into a socket that supplies the power indicated on the power supply.
- To minimize damage to the electrical cable, do not disconnect the power supply from the socket by pulling the cable. When disconnecting, hold the power supply and pull it from the socket.
- Make sure the AC adapter cable is routed so that it is not stepped on, and people do not trip over it.
- If you are using an extension cord, make sure it is properly grounded.

**WARNING:**

- Use only the original modu<sup>W</sup> AC adapter supplied with this product, part number CHR000016. Using another AC adapter may invalidate the warranty, and could endanger the user.
- Use only original replacement parts. If the plug does not match the socket, use a dedicated adapter based on the manufacturer's recommendation. A bad connection endangers the user.

**Small children**

Keep your modu<sup>W</sup> device and all accessories out of the reach of small children. Small parts may cause choking or serious hazard if swallowed.

**Pacemakers**

To avoid possible interference with pacemaker functioning, mobile device manufacturers and the independent research group, Wireless Technology Research, recommends maintaining a minimum of 15 centimeters (6 inches) between mobile devices and a pacemaker. It is therefore recommended to:

- Always keep your modu™ W device at least 15 centimeters (6 inches) away from your pacemaker.
- Never keep your modu W device in your breast pocket.
- Use your modu W device on the ear opposite your pacemaker.

If you have any reason to suspect interference with your pacemaker or any other medical device, immediately turn off your modu W device and move it away.

**Magnetic fields**

Exposure to magnetic fields may damage your modu W device. Parts of your device may be magnetic. Do not store credit cards or other magnetic stored media near the device, as data may be erased.

**Radio frequency signals**

This device emits Radio Frequency (RF) signals that may interfere with the operation of unprotected equipment such as hearing aids, pacemakers, medical devices and other electronic equipment in your home or vehicle. For information about pacemakers, see Pacemakers. If you experience any interference, consult with the manufacturer of the electronic device.

When used normally your modu W device meets RF exposure guidelines.

**Protect your hearing**

Listening to modu™ W device at high volumes can damage your hearing. Use the minimum volume necessary to hear your conversation or music.

**Exposure to Radio Frequency Information**

This modu W device meets guidelines for exposure to radio waves.

This modu W device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines and conforms with European Union (EU) and Federal Communication Commission (FCC) standards that limit human exposure to radio frequency (RF) energy emitted by radio and telecommunications equipment. These standards prevent the sale of mobile devices that exceed a maximum exposure level (known as the Specific Absorption Rate, or SAR) of 2.0 Watts/kilogram (W/kg) averaged over 10 grams of tissue (according to EU standards), and 1.6 W/kg averaged over 1 gram of tissue (according to FCC standards). Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The actual SAR level of an operating device can be below the maximum value because the device is designed to use only the power required to reach the base station. That amount changes depending on a number of factors such as how close you are to a base station. The highest SAR value for use of this device at the ear was 0.326 W/kg and at the body was 0.922W/kg.

### Limited Warranty

**modu** Ltd. ("modu") provides this limited warranty for your modu™ W device and original accessories delivered with your modu W device (hereinafter referred to as "Product"). Should your Product need warranty service, please return it to the authorized distributor from whom it was purchased.

#### The warranty

Subject to the conditions of this Limited Warranty, modu warrants this Product to be free from defects in design, material and workmanship at the time of its original purchase by a consumer, and for a subsequent period of twelve (12) months.

If, during the warranty period, the Product fails to operate under normal use and service, due to defects in design, materials or workmanship, modu authorized distributors or service agents, in the country/region where you purchased the Product, will, at their option, either repair or replace the Product in accordance with the terms and conditions stipulated herein.

modu and its service agents reserve the right to charge a handling fee if a returned Product is found not to be under warranty according to the conditions below.

Please note that some of your personal settings, downloads or other information may be lost when your Product is repaired or replaced. At present, modu may be prevented by applicable law, other regulation or technical restrictions from making a backup copy of certain downloads. modu does not take any

responsibility for any lost information of any kind and will not reimburse you for any such loss. You should always make backup copies of all the information stored on your Product such as downloads, calendar and contacts before handing in your Product for repair or replacement.

**Conditions**

14. This warranty is valid only if the original proof of purchase (specifying the date of purchase and serial number\*) issued to the original purchaser for this Product by a modu authorized distributor, is presented with the Product to be repaired or replaced. modu reserves the right to refuse warranty service if such information has been removed or changed after the original purchase of the Product from the dealer.
15. If modu repairs or replaces the Product, the repaired or replaced Product shall be warranted for the remaining time of the original warranty period or for ninety (90) days from the date of repair, whichever is longer. Repair or replacement may involve the use of functionally equivalent reconditioned units. Replaced parts or components will become the property of modu.
16. This warranty does not cover any failure of the Product due to normal wear and tear, or due to misuse, including but not limited to use in other than the normal and customary manner and in accordance with the modu instructions for use and maintenance of the Product. Nor does this warranty cover any failure of the Product due to accident, software or hardware modification or adjustment, acts of God or damage resulting from liquid.

A rechargeable battery can be charged and discharged hundreds of times. However, it will eventually wear out – this is not a defect. When the talk-time or standby time is noticeably shorter, it is time to replace your battery. Battery replacement should be performed only by a modu-authorized service agent. modu recommends that you use only chargers approved by modu. Minor variations in display brightness and color may occur between phones. There may be tiny bright or dark dots on the display. These are called defective pixels and occur when individual dots have malfunctioned and cannot be adjusted. Two defective pixels are deemed acceptable. Minor variations in camera image appearance may occur between phones. This is not uncommon and is not regarded as a defective camera module.

17. Wi-Fi® availability and coverage are provided by independent service providers. modu will not be responsible for the operation, availability, coverage, service or range of such.
18. This warranty does not cover Product failures caused by installations, modifications, repair, opening, disassembling or an attempt to disassemble the Product by a non-modu authorized person.
19. This warranty does not cover Product failures which have been caused by use of accessories or other peripheral devices which are not modu branded original accessories intended for use with the Product.
20. Tampering with any of the seals on the Product will void the warranty.

**21.** THERE ARE NO EXPRESS WARRANTIES, WHETHER WRITTEN OR ORAL, OTHER THAN THIS PRINTED LIMITED WARRANTY. ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY. IN NO EVENT SHALL MODU OR IT LICENSORS BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OR LOSSES OF ANY NATURE WHATSOEVER, INCLUDING BUT NOT LIMITED TO LOST PROFITS OR COMMERCIAL LOSS; TO THE FULL EXTENT THOSE DAMAGES CAN BE DISCLAIMED BY LAW.

Some countries/states do not allow the exclusion or limitation of incidental or consequential damages or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.

The warranty provided does not affect the consumer's statutory rights under applicable legislation in force, nor the consumer's rights against the distributor arising from their sales/purchase contract.

\* In some countries/regions additional information is requested. If so, this is clearly shown on the valid proof of purchase.
